Symbol legend:

rmch: Historic Monte Carlo Rally Regulations, between 100 and 150 studs
MC: Monte Carlo regulation, 12 studs every 10cm linear

USE COMPOUND	DESCRIPTION
Economical Black	Economical compound, normal studsonly, for fun and for ice circuit
Normal Yellow	Normal compound, ideal for snow rallies
Hard Red	Hard compound, for ice circuit, autocross and mud
Special Blue	Special soft compound, for snow rallies, with more traction and lower consumption
Carbon Soft System	Addition of small splinters of carbon in the compound

TECHNICAL ADVICE	
For unglued studs: use tyres on clean asphalt for at least 80-100 km at a moderate speed before using them on snow and ice. Never reverse the direction of rotation of the studded tyres	
Per chiodi non incollati: utilizzare gli pneumatici su asfalto pulito per almeno 80/100 km a velocità moderata prima di utilizzarli su neve e ghiaccio. Non invertire mai il senso di rotazione degli pneumatici chiodati	
Pour les clous non collés: utiliser les pneumatiques sur asphalte propre pendant au moins 80/100 km à une vitesse modérée avant de les utiliser sur neige et glace. Ne jamais inverser le sens de rotation des pneumatiques cloutés
